

# Polarity

Jakob Progsch, Werner Randelshofer

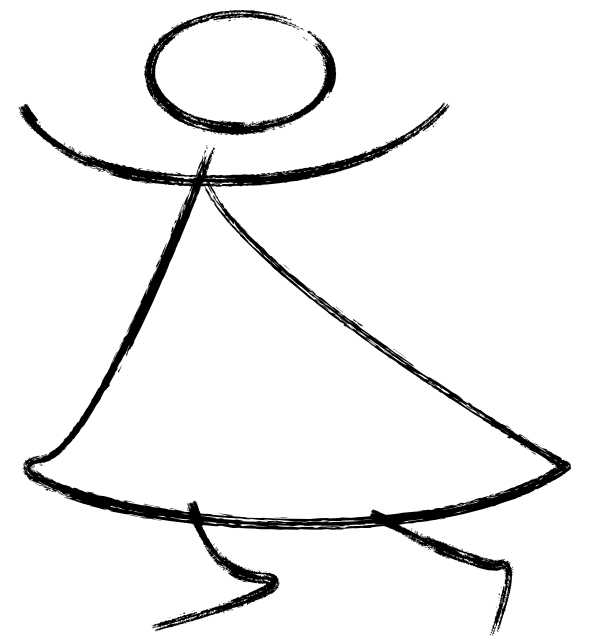

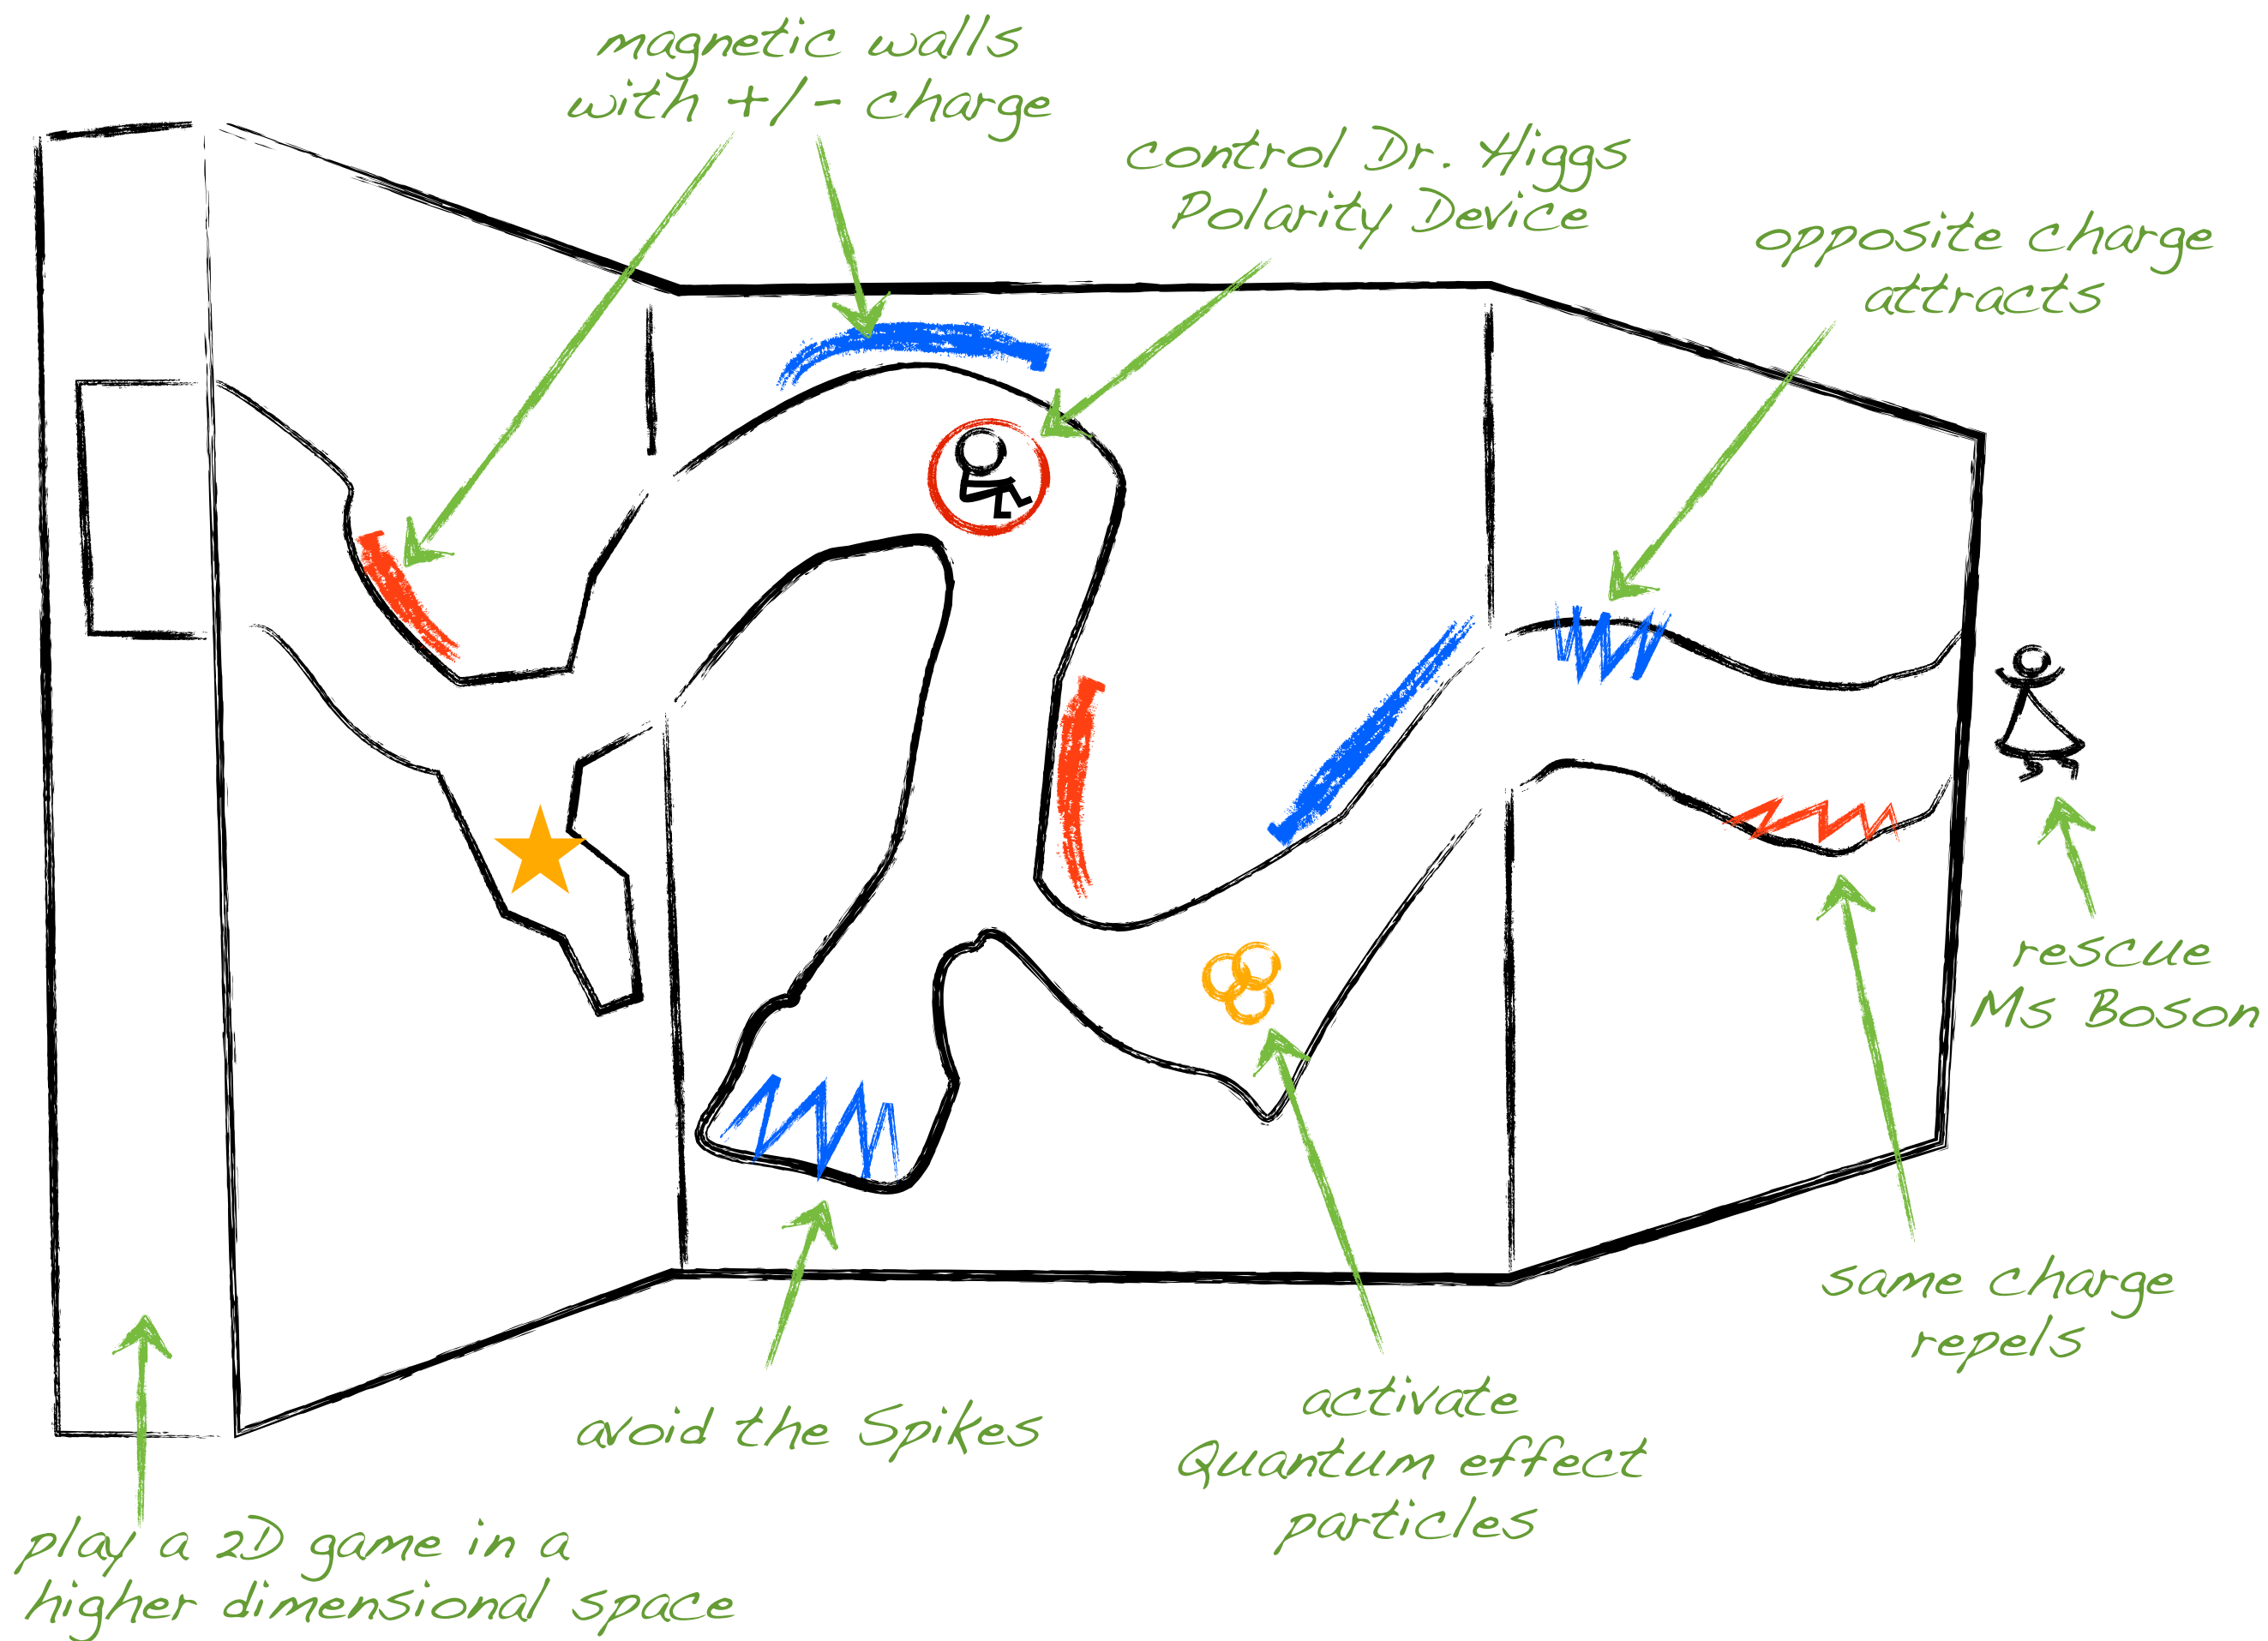

Oops, Ms Boson has been sucked into the particle accelerator at CERN.

Luckily Dr. Higgs is to the rescue!

He is flying his polarity device, a magnetic soap bubble, protecting him from the gigantic electro-magnetic forces.

Will he find Ms Boson before it is too late?

Polarity: + + + +

Flip polarity  
often,  
flip it well.

Move, move,  
move!!!
