GROUP 7 FINAL PROJECT  
PROPOSAL

# Working Cover Design

**O**ffice  
nslaughter

# ***FACE-MELTING OFFICE INSANITY***

What will happen next?

# Game Theme

- A small working man versus his large, evil employer

# Gameplay – The Basics

- Up to four players take on waves of enemies
- Destroying enemies may cause collectable items to fall on the ground
- Waves are divided into rounds
- Between rounds, players may combine collected items to make new weapons

# Gameplay – Winning and Losing

- ⦿ There is no “winning” this game, eventually you will be overtaken
- ⦿ Try to survive as long as possible, take as many with you as you can
- ⦿ Similar to the *Call of Duty: World at War* game mode “Zombies”
- ⦿ Extremely addictive, albeit frustrating gameplay

# The Protagonists

- ⦿ Potentially many different character classes
  - Each character has different strengths
- ⦿ All characters are office regulars

# The Horde

- ⦿ Electronic goods that have become self-aware
- ⦿ Different classes with different abilities
  - Foot Soldiers: Fax Machines
  - Ranged Shooters: Computers
  - Field Marshals: Server Racks
  - Bosses (Very Stupid): Vending Machines

# How do I Kill It?

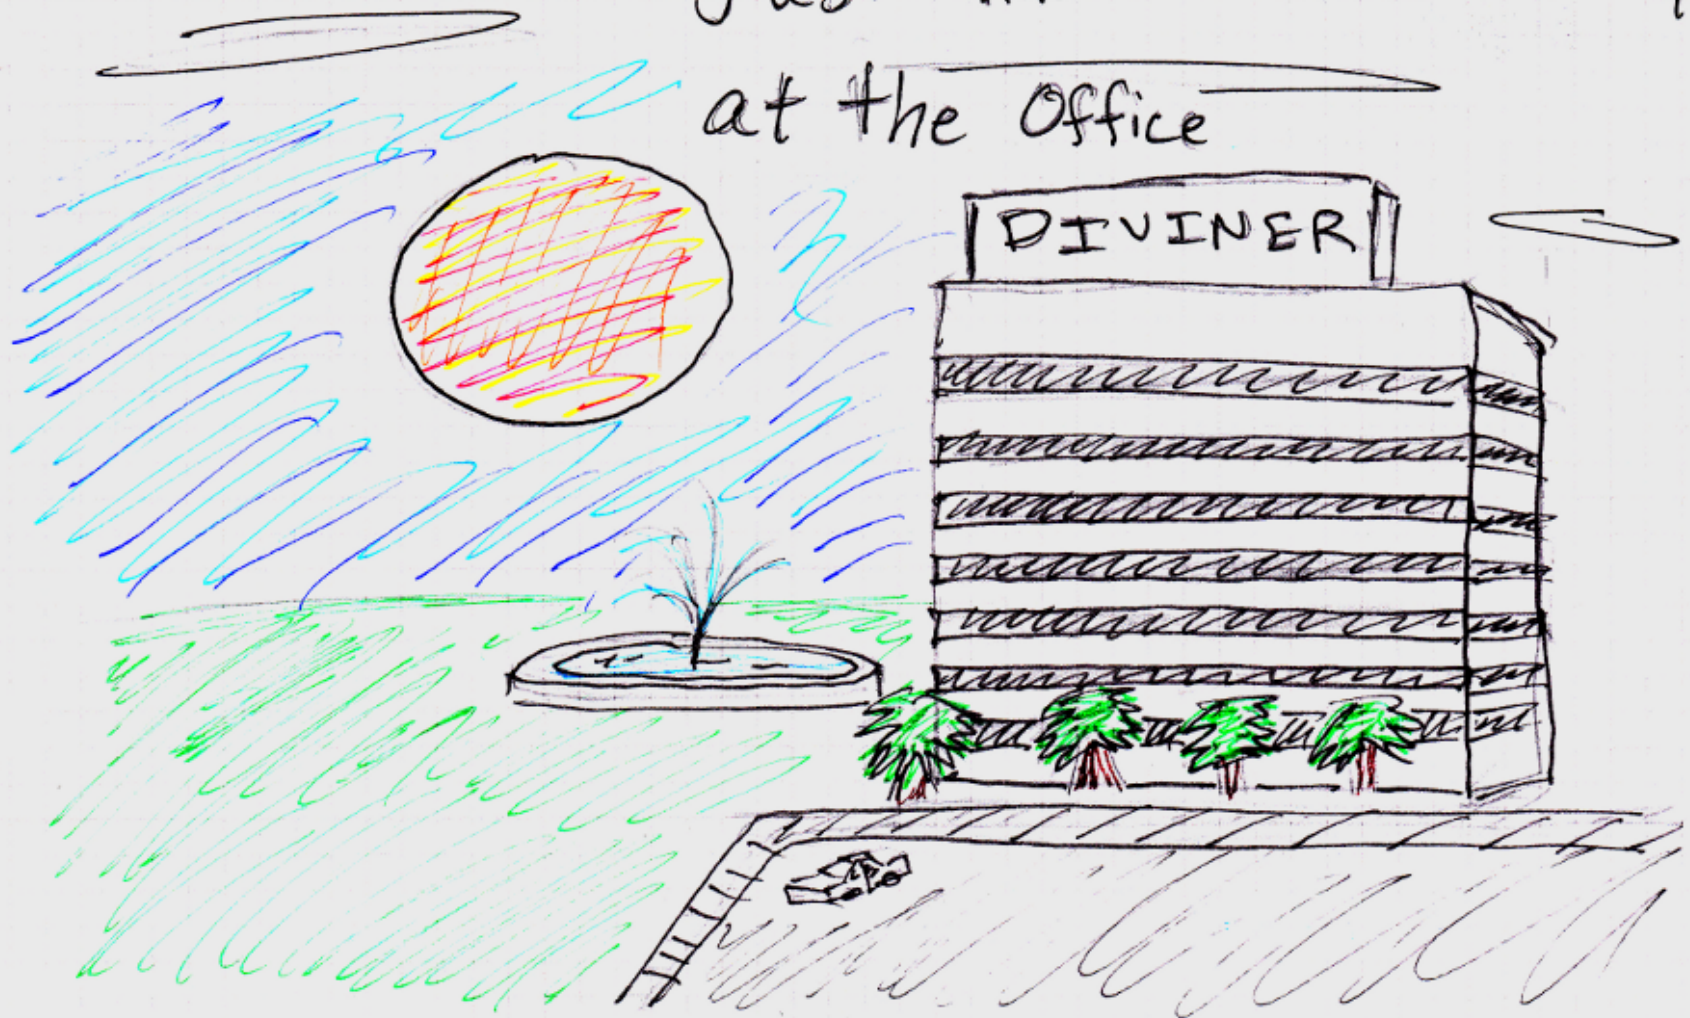

- ◎ Creative weapon constructions
- ◎ Use keyboards from destroyed computers as armor plates
- ◎ Combine various objects to make more powerful weapons
  - Bola made from a pair of mice tied cord to cord
  - Cat o' Nine Tails made from a bunch of mice
  - Tape together staplers

# The Environment

- ⦿ Pick up stuff to use as weapons:
  - Fire extinguisher
- ⦿ Use objects to your advantage:
  - Shoot water cooler for huge explosion!
- ⦿ Hide behind office plants
- ⦿ Give up and go back to work in the cubicle

# How it All Began

Just Another Beautiful Day.  
at the Office

In an important business meeting

Productivity is at an all-time low. We need to do something drastic.

What do you suggest we do?

Turn on the employee management program

Isn't that dangerous?

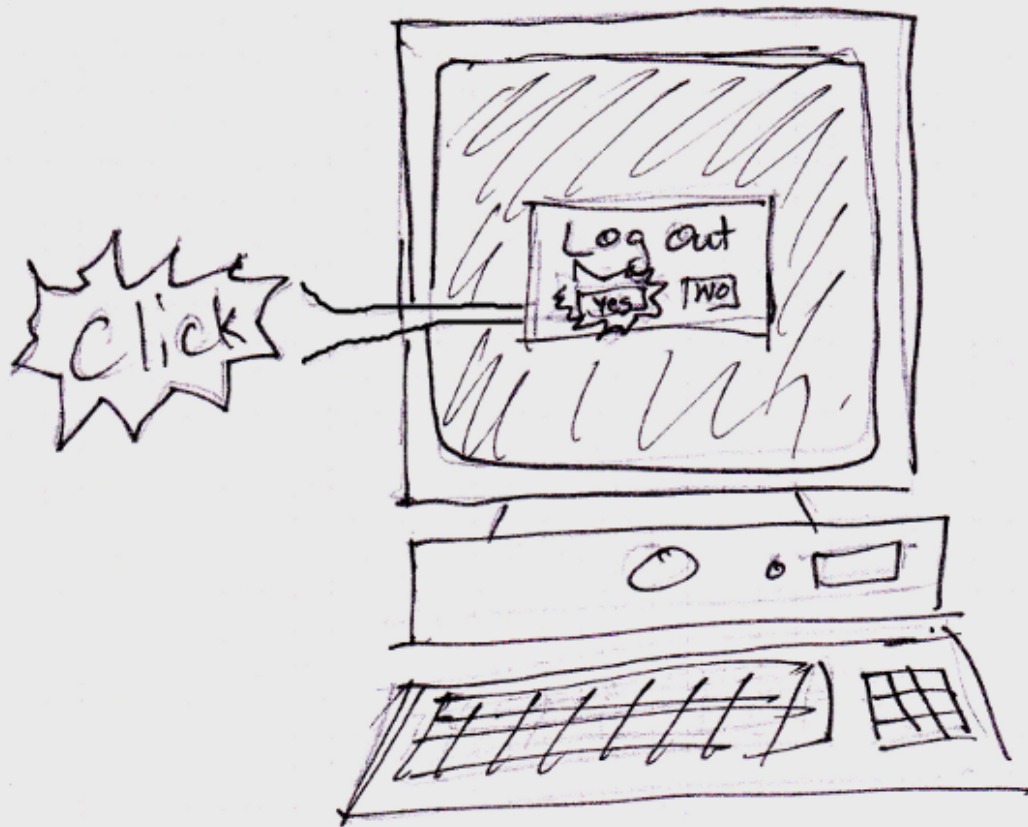

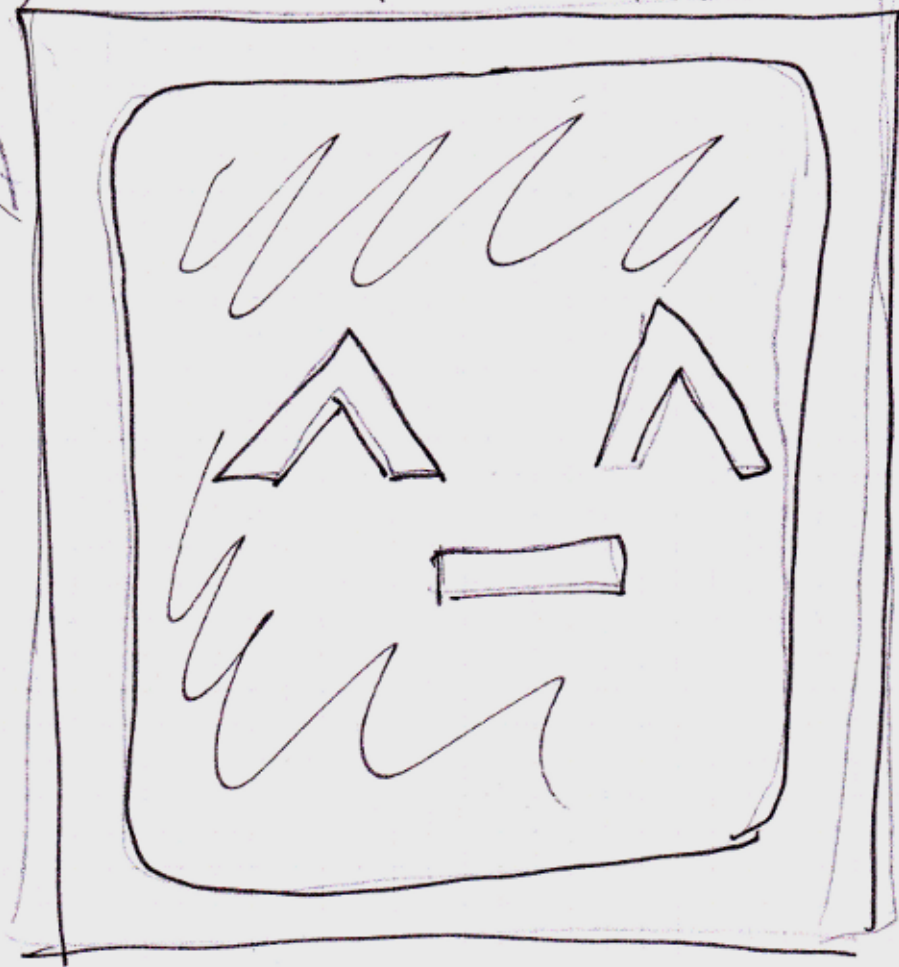

Meanwhile, back where the normal people work.

Hey David, I'm punchin' out, you ready to go?

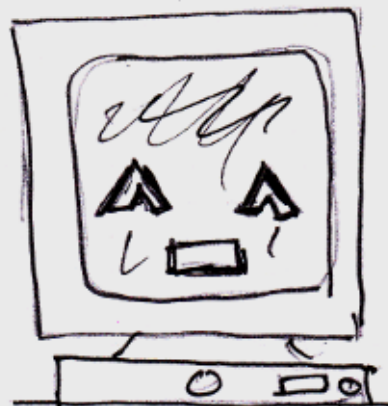

Can't let you do that, Dave, your productivity has gone  
down, Dave. To maintain productivity, you will be enslaved until  
retirement!

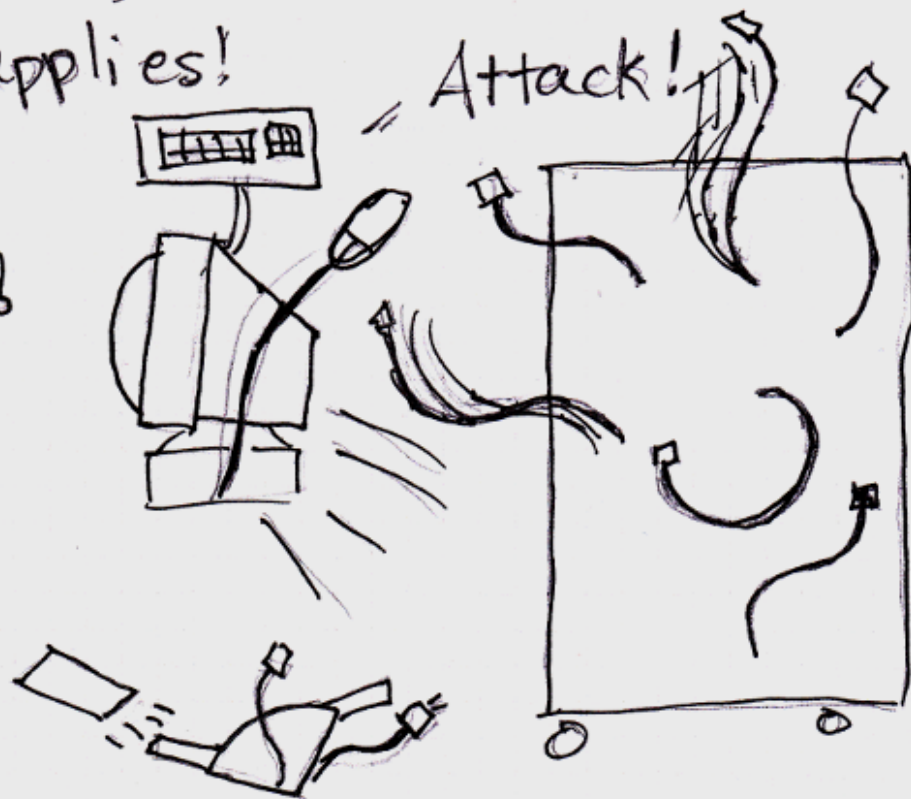

I am sorry, you must get back to work

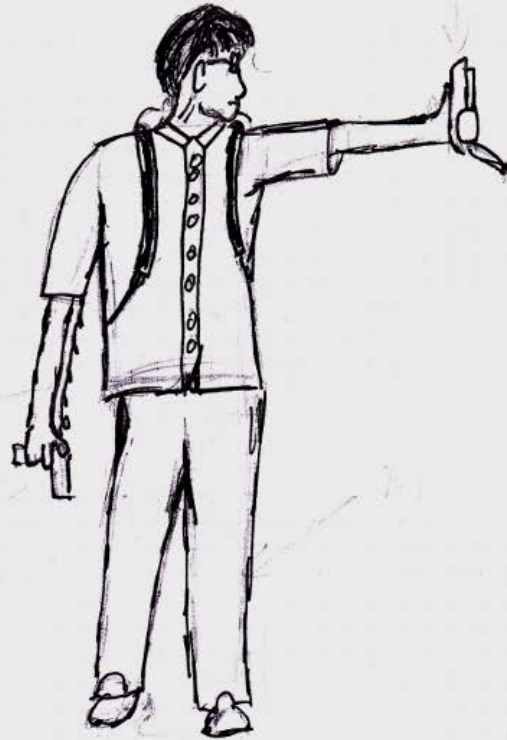

Then I am afraid you must ~~die~~ DIE!

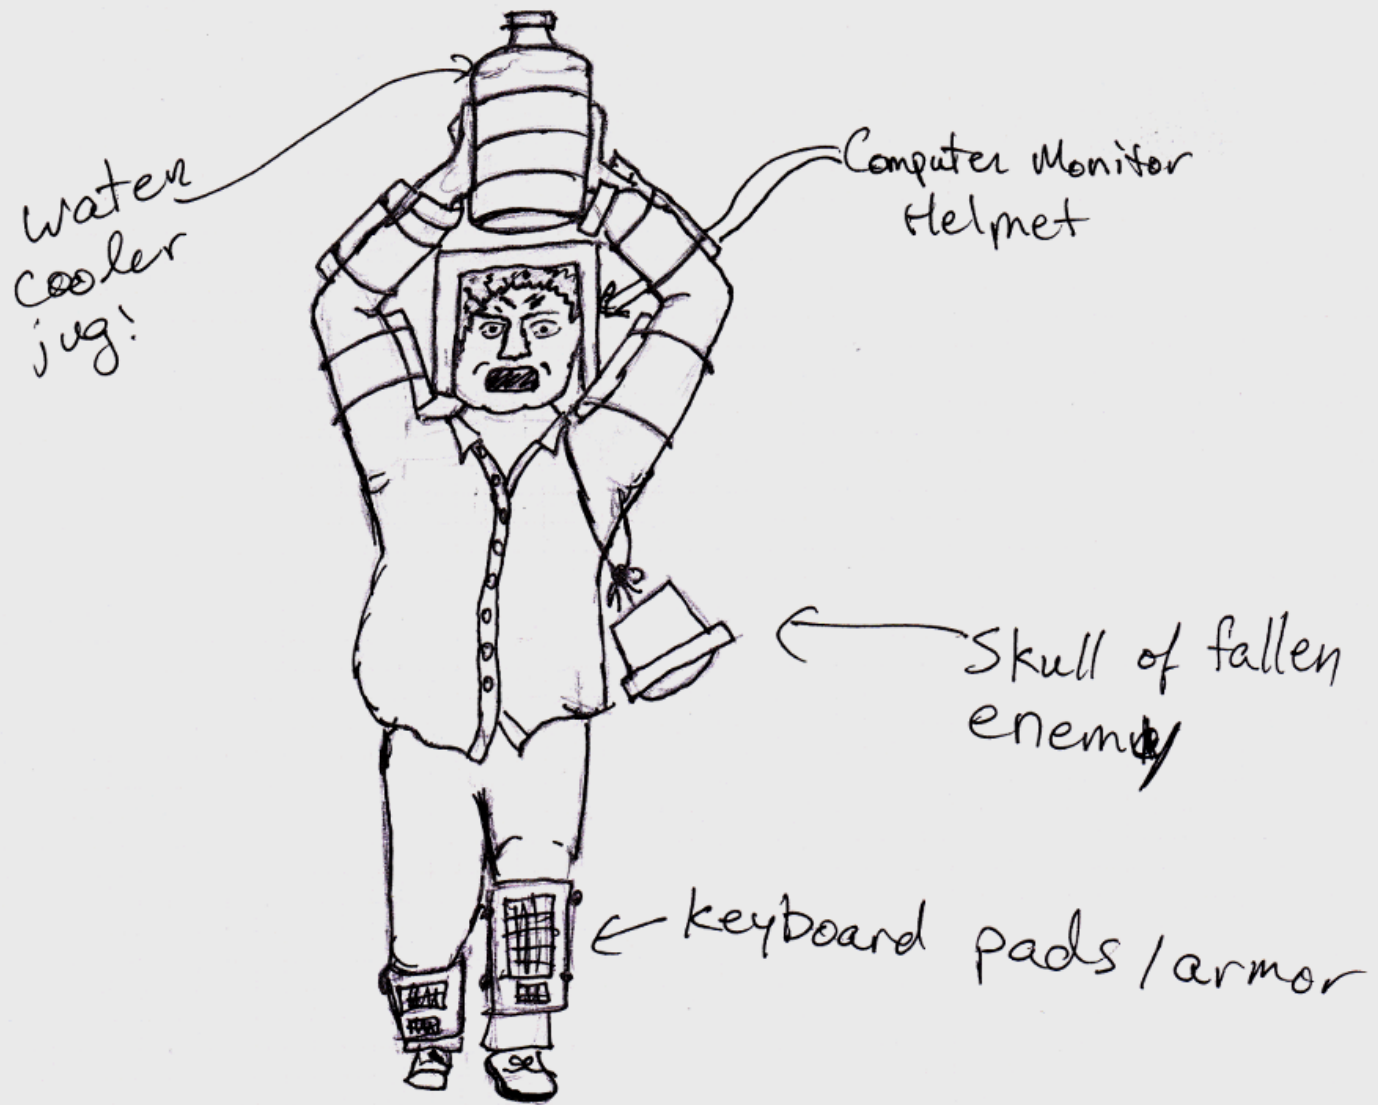

Retreat!  
We must arm ourselves  
with office supplies!

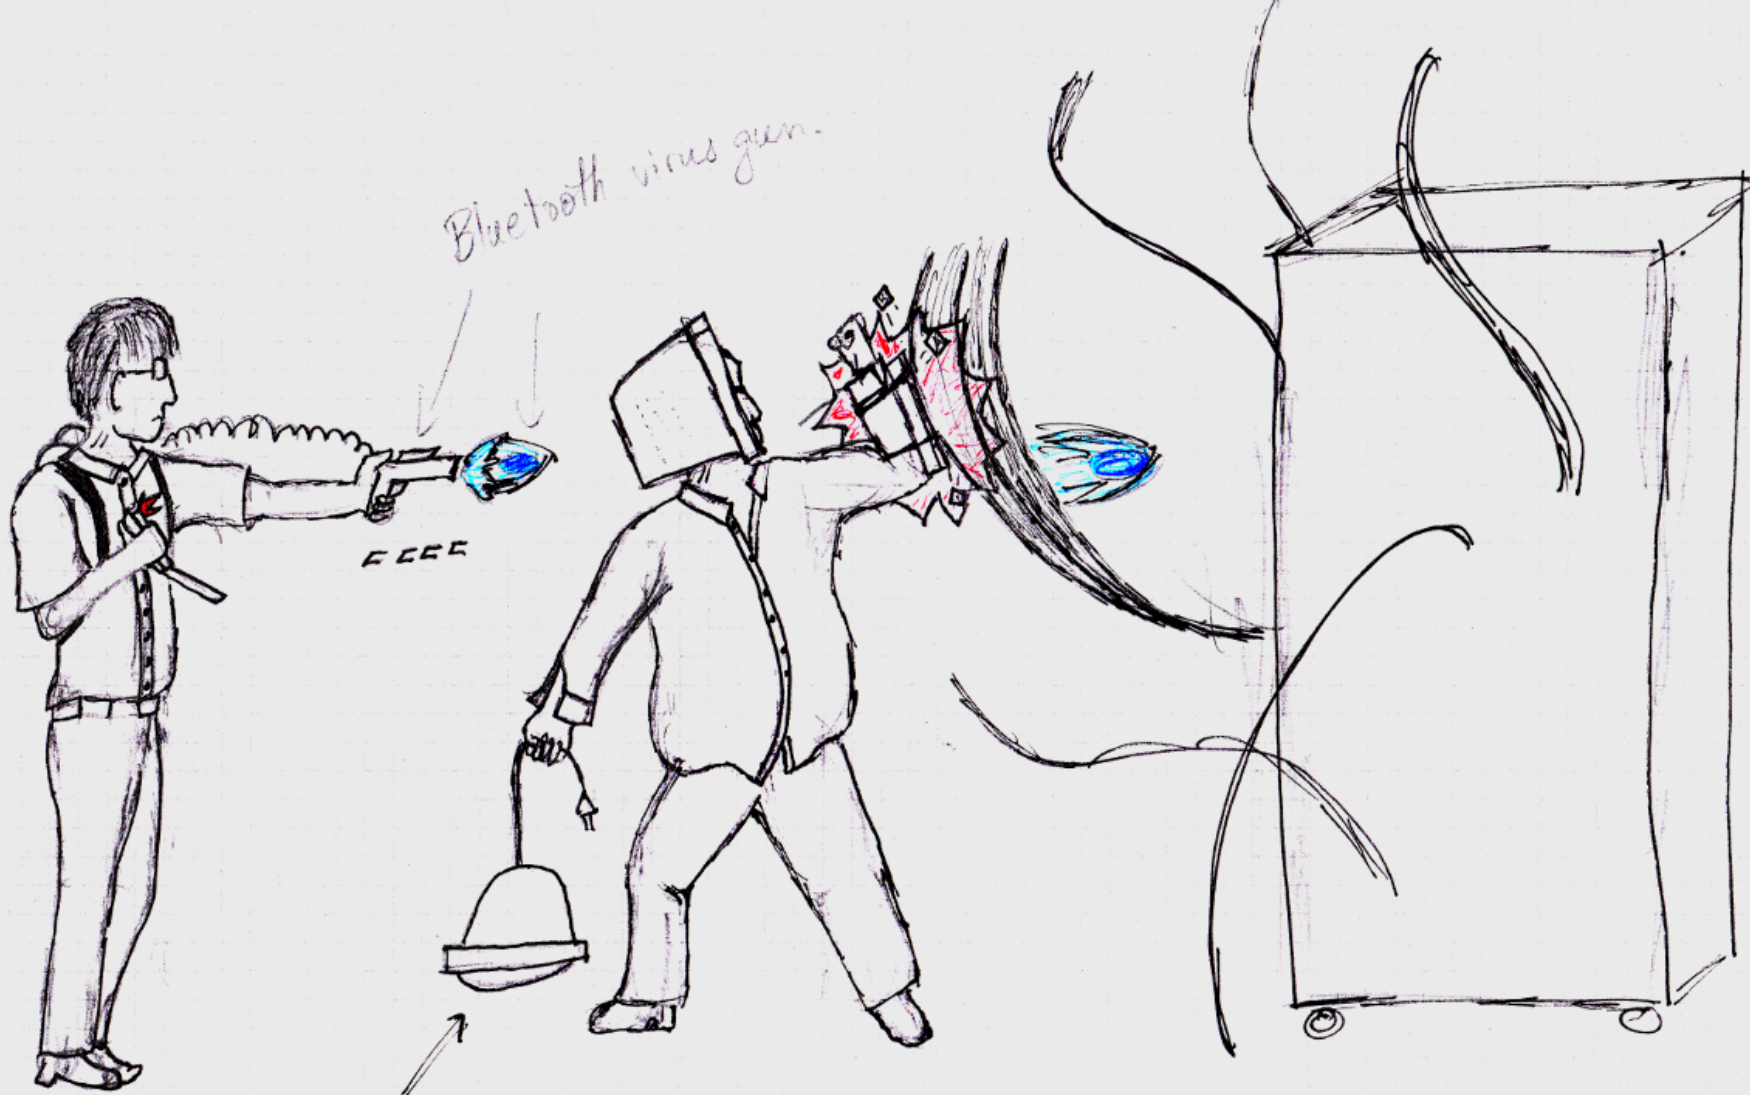

The Sharp-  
Shooter

# The Tank

Bluetooth virus gun.

Using computer as weapon.

# Physical Prototype Demonstration
